JAGUAR SALES AND SERVICE INTERNATIONAL

JAGUAR SALES AND SERVICE INTERNATIONAL

This book lists all Jaguar Importing Companies worldwide, together with Jaguar Dealers in those countries where sales and service are provided through a national Dealer network. (This information is not included in the case of The United States and Canada, where information should be obtained from the appropriate Importing Company).

The information contained is correct as at June 1996. Whilst every effort is made to ensure accuracy, changes amongst the Jaguar Franchise may occur during the currency of this book. Neither Jaguar Cars Ltd nor any listed Importing Company or Dealer shall in any circumstances be held liable for any inaccuracy, or the consequences thereof.

Dealers and Importing Companies listed here aim to conform to Jaguar standards of excellence in both Sales and Service. However, all cars sold as Jaguars or Daimlers are required to meet local legislation requirements. Should you require service in a country other than that in which your car was originally purchased, every effort will be made to meet your needs, but the availability of certain parts may be affected by differences in car and component specifications. If the nearest Dealer is unable to help, you should contact the Importer shown at the head of each country's entry.

Jaguar Cars' Importers and Dealers are independent traders, not the Company's Agents, and have no authority to bind the Company, or to enter into any financial or other commitment, on the Company's behalf.

Only Franchised Jaguar Dealers are authorised to carry out warranty work.

The company is a leading manufacturer and distributor of high quality, low cost, and reliable products. The company's products are sold in over 100 countries and are used in a wide variety of applications. The company's products are sold in over 100 countries and are used in a wide variety of applications.

The company's products are sold in over 100 countries and are used in a wide variety of applications. The company's products are sold in over 100 countries and are used in a wide variety of applications.

The company's products are sold in over 100 countries and are used in a wide variety of applications. The company's products are sold in over 100 countries and are used in a wide variety of applications.
